

## Errata (revised on Sep. 9)

- **Page 12** Sep.10 Chair of the first morning session (9:00-10:30): TBD → K. Nishijima
- **Page 12** Sep.10 Cancel “11:30 Cosmology Overview”.
- **Page 12** Sep.10 Add “11:30 Inflation models and future CMB B-mode observations, Kazunori Kohri (KEK, Japan)”.
- **Page 12** Sep.10 Chair of the second morning session (11:00-12:30): K. Kohri → M. Kawasaki
- **Page 19** Cancel Gravitational Wave #2 “16:10 A/D and D/A Processing Unit for Advanced Virgo Control Suspension Electronics”.
- **Page 24** Neutrino #13, Change the start times as follows;
  - 14:50 Recent T2K Neutrino Oscillation Results
  - 15:10 Neutrino-Nucleus Interaction Cross-Section Measurements at T2K
  - 15:30 Results and Prospects from the NOvA Experiment.
- **Page 24** Cancel DM#11 “15:30 The Beam Dump experiment”, and the 15:50 talk in the session starts at 15:30.
- **Page 25** Cancel Cosmology#1 “15:10 Inflation models and future CMB B-mode observations by LiteBIRD”, and the 15:30 talk in the session starts at 15:10.
- **Page 25** Sep.11 Chair of the first afternoon session Neutrino #15 (14:30-15:50): C. Rott → J. Shirai
- **Page 30** Sep.12 Chair of the second afternoon session Neutrino #23 (16:10-17:50): J. Shirai → C. Rott
- **Page 31** Cancel Cosmology#4 “16:30 Advances towards a direct measurement of the gravitational interaction on antimatter with the AEGIS experiment”, and the 16:50 talk in the session starts at 16:30.
- **Page 37** Cancel Poster Group 4 “151 Search for axions using a resonant NMR technique”.
- **Page 37** Cancel Poster Group 4 “380 A new method to determine parameters of scintillation light propagation in a detector”.
